### **New: Child Find, Evaluation, & Eligibility Determination Survey and Focus Group**

The Office of the State Superintendent of Education (OSSE) is initiating a review of key components of Title 5-E, Chapter 30 of the District of Columbia Municipal Regulations (DCMR), the local regulation that governs special education practice in the District of Columbia, with the intention of revising identified key components.

In addition, input from the process will be used to inform the development of a new five-year strategic State Systemic Improvement Plan (SSIP) for Special Education.

As part of the regulatory review process, the Division of Specialized Education (DSE) will be releasing surveys and holding topic-specific focus groups on the following key content area “clusters” to inform the work:

- Transfer of Educational Rights
- Child Find, Evaluation, & Eligibility Determination
- Specialized Instruction & Caseload/Class Size
- Least Restrictive Environment (LRE) & Discipline Procedural Safeguards
- Graduation Pathways, Secondary Transition, & IEP Certificate of Completion

A high-level overview of the OSSE’s content area review process and schedule can be found at:

[DC Municipal Regulations \(DCMR\) Title 5-E, Chapter 30: Special Education Review Schedule.](#)

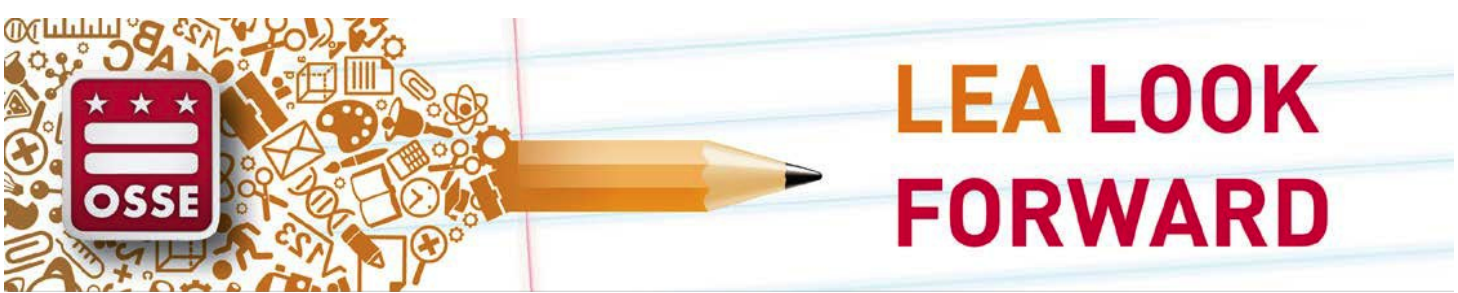

The second content area, Child Find, Evaluation, & Eligibility Determination, will be reviewed in June. The LEA focus group will take place on Wednesday, June 18, 2014 from 3:00-4:30 pm at 810 First Street NE, 3rd Floor, Grand Hall, Washington, DC 20002. [RSVP here](#) by June 13, 2014. ### **Reminder: Compliance Monitoring for Indicators 4b, 9, and 10 to Start on May 1, 2014**

The U.S. Department of Education, Office of Special Education Programs (OSEP), requires each state to engage in annual monitoring of all LEAs on three items:

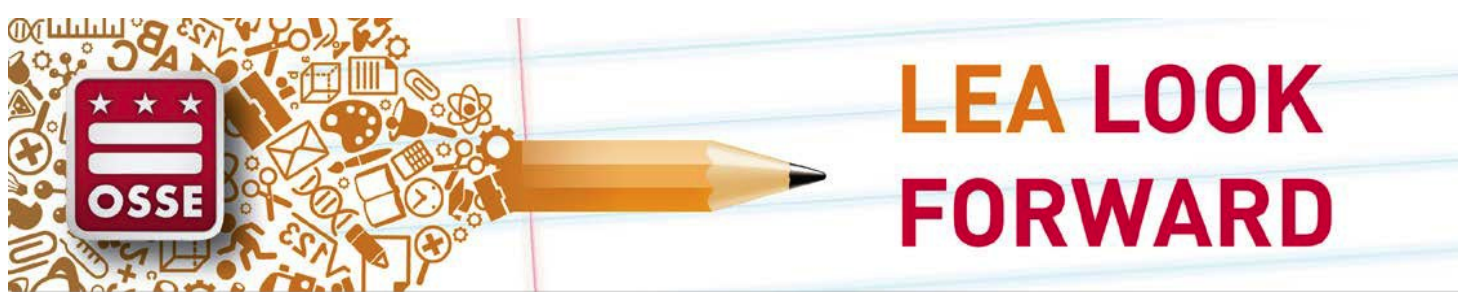

1. Indicator 4b- Suspensions and Expulsions: Percent of districts that have: (a) a significant discrepancy, by race or ethnicity, in the rate of suspensions and expulsions of greater than 10 days in a school year for children with IEPs; and (b) policies, procedures or practices that contribute to the significant discrepancy and do not comply with requirements relating to the development and implementation of IEPs, the use of positive behavioral interventions and supports, and procedural safeguards.
2. Indicator 9- Disproportionate Representation as a Result of Inappropriate Identification: Percent of districts with disproportionate representation of racial and ethnic groups in special education and related services that is the result of inappropriate identification.
3. Indicator 10-Disproportionate Representation in Specific Disability Categories: Percent of districts with disproportionate representation of racial and ethnic groups in specific disability categories that is the result of inappropriate identification.

To complete monitoring for indicators 4b, 9, and 10, all LEAs whose data indicate that there may be a discrepancy in one or more of the indicators outlined above participate in a self-study process. OSSE reviews the results of the self-study, and makes findings of noncompliance for LEAs whose self-study materials indicate that the discrepancies in discipline, special education status, or special education category are related to inappropriate policies, procedures, or practices.

In order to meet OSEP's timeline for monitoring on this item, OSSE is monitoring on indicator 4b, 9, and 10 in the spring instead of the fall. This means that many LEAs that just recently participated in indicator 4b, 9, and 10 monitoring may be required to do so again. To decrease the reporting burden for LEAs as OSSE adjusts the monitoring schedule, the activities that each LEA is required to complete have been reduced.

OSSE will send materials to all LEAs that are required to participate in indicator 4b, 9, and 10 monitoring during the first week of May. The information packet will include deadlines for submission of self-study materials and will provide a contact person at OSSE who will support your LEA through the process. If you have any questions about this monitoring, please contact [Dr. Cheryll James](#) by email or call on (202) 724-7803.

### **Reminder: LEA Tiered Technical Support Model for Special Education Best Practices**

Over the course of the 2012-2013 school year, OSSE's Division of Specialized Education (DSE) undertook its second comprehensive data accuracy audit as required by the Consent Decree entered into under *Jones v. District of Columbia*, Civ. Act. No. 97-2402 (formerly consolidated with *Blackman v. District of Columbia*, Civ. Act. No. 97-1629 (PLF), now settled). The focus of this annual audit is to evaluate the accuracy of a representative sample of special education data from all LEAs whose data are maintained in OSSE's statewide data information systems, and to use the results to inform training and technical assistance efforts that will ensure systemic improvements.

DSE has completed an initial review of the results from this audit and has reviewed feedback received from last year's technical assistance efforts to refine its approach to meet LEA needs. Over the course of the next six months, DSE will continue to work with LEAs and other education stakeholders to design a technical assistance model that will best support improved outcomes.

DSE offered the foundational webinar on Systems and Supports on Monday, April 28, 2014. We will host two additional webinars so that LEAs have multiple opportunities to attend this training. The second broadcast of this webinar will be held on Wednesday, May 28, 2014 from 2:30pm-4:00pm. The third broadcast of this webinar will be held on Friday, June 6, 2014 from 10:00am-11:30am. Each webinar broadcast will include two topic areas. The first portion of the webinar broadcast will review best practices regarding data quality. The second portion of the webinar will review systems and supports to help manage special education practice. Below please find the webinar description and registration link.

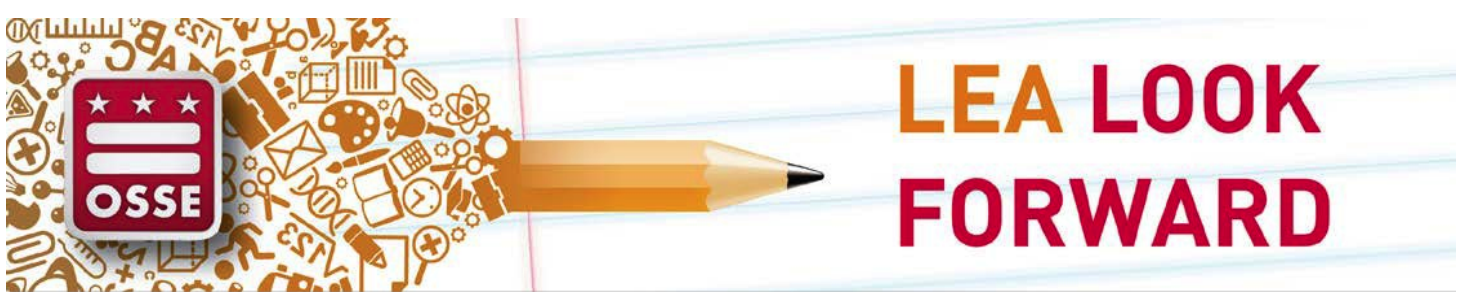

#### **Topic 1: Improving Special Education Data Quality in SEDS to Enhance Student Outcomes**

This portion of the webinar series will review trends in data quality based on results from the Accuracy Audit. Participants will learn how analysis of special education data quality can lead to enhanced student outcomes. Specific areas to be addressed include data quality for nonpublic placements, Extended School Year (ESY) services, transfer of student records, consent for initial provision of services, evaluation timelines, and related service provider management.

#### **Topic 2: Creating Systems and Supports to Enhance Student Outcomes**

This webinar, which is informed by trends in data quality, will provide participants with tools to help support them as they (a) develop a structure for effectively communicating with their teams, (b) establish guidelines for school-based training, and (c) develop and monitor systems that will ensure timeliness of IEPs, initial evaluations, and re-evaluations. Participants will be introduced to a checklist that will help them assess where they are in terms of managing their special education programming. After this quick introduction, participants will be guided through a process, using questions from the checklist, that will help them develop or refine procedures to ensure timely IEPs, initial evaluations, and re-evaluations.

### **Reminder: Student-led IEP Training**

Research has shown that students who actively participate throughout the IEP process have higher levels of school engagement and are more likely to achieve their academic and personal goals. Over the past year, OSSE's Division of Specialized Education has developed new tools and resources to assist schools and families in supporting students to take an active role in planning for their future. One of these tools is "The Best Me I Can Be: Implementing Student-led IEPs" in the District of Columbia, a film that documents a demonstration project that began in the 2013-2014 school year. This film shares ideas about how students, educators, and parents can be meaningfully involved in the special education planning process. Learn how you can better support student involvement in IEP planning by participating in the following interactive training modules:

### **Division of Specialized Education (Continued)**

1. Getting Started,
2. Building Awareness,
3. Understanding Your IEP,
4. Preparing for Participation, and
